L-3567 A/B 60 SHORE A POLYURETHANE ELASTOMER

Date: 05/09/2014

BJB's "L Series", with its 20 to 35 minute work time, is perfect for manufacturing larger or more complex parts and molds. The L-3567 is a 60 Shore A material offering exceptional resiliency. You'll find the 1:1 ratio to be extremely convenient whether you're hand mixing or using cartridges. For faster work times consider BJB's F-1 or M Series of urethane elastomers.

- RoHS/REACH compliant
- Industrial Rollers
- Molds for Concrete

- High Resiliency
- Bushings and Shock Absorbers
- Strain Reliefs

Gel Time	60 - 65 minutes		
Demold Time @ 77°F (25°C)	8 - 14 hours		

Properties above are typical and not for specifications.

CURE SCHEDULE/HEAT CURING:

Most of the physical properties can be achieved in 5-7 days at 77°F (25°C). You may use your own post-cure schedule but the physical properties may vary from BJB's cure schedule of 1-3 hours at 77°F (25°C) followed by 16 hours at 160°F (71°C). Do not exceed curing temperature of 200°F (93°C).

PREPARATION AND RELEASING:

When L-3567 A/B is used to produce molds or parts from plaster, wood or other porous substrates, we would first recommend that they be sealed. Release agents may then be applied over the sealed surface.

NOTE:

Prolonged direct exposure to sunlight can affect the surface of this product. Cover molds or other products when storing outdoors.

BJB offers silicone RTV mold making materials along with a wide range of accessory items. These include de-airing agents, pigments, mold releases, and Jiffy[®] Mixers. Visit BJB's website at www.bjbenterprises.com or consult a BJB representative for more information.

STORAGE:

Store ambient temperatures, 65-80°F (18-27°C). Unopened containers will have a shelf life of 6 months from date of shipment when properly stored at recommended temperatures. Purge opened containers with dry nitrogen before re-sealing.

PACKAGING	Part A	Part B	Cubic Inches Per Kit
Gallon Kits	8 lbs.	8 lbs.	419.5
5-Gallon Kits	40 lbs.	40 lbs.	2,097.6
55-Gallon Drum Kits	440 lbs.	440 lbs.	23,073.6

SAFETY PRECAUTIONS:

Use in a well-ventilated area. Avoid contact with skin using protective gloves and protective clothing. Repeated or prolonged contact on the skin may cause an allergic reaction. Eye protection is extremely important. Always use approved safety glasses or goggles when handling this product.

IF CONTACT OCCURS:

Skin: Immediately wash with soap and water. Remove contaminated clothing and launder before reuse. It is not recommended to remove resin from skin with solvents. Solvents only increase contact and dry skin. Seek qualified medical attention

if allergic reactions occur.

Immediately flush with water for at least 15 minutes. Call a physician. **Eves:**

If swallowed, call a physician immediately. Remove stomach contents by gastric suction or induce vomiting only as directed by medical personnel. Never give anything by mouth to an unconscious person.

Refer to the Material Safety Data Sheet before using this product.
